How to get all the cleaning and health benefits your central vacuum promises, and save \$50.
Your central vacuum system is probably one of your most valuable cleaning tools. But time and regular use can hamper its efficiency. It only takes a comprehensive 20-point tune-up to get it running like new again. Your central vacuum's only purpose in life is to protect your family's health and thoroughly clean your home. All it asks for in return is occasional tender loving care. The service doesn't cost much—especially with the 2020 Tune-Up Special we're running this month—but it can make a world of difference.

Please Visit:
1. Highest quality, efficient and low-churn
2. Highest quality water (plus gasket for proper sealing)
3. Highest quality, safe and effective for any problem

Introducing iRule
With iRule, you can deliver powerful control capabilities to your customers at a significantly lower price point compared to other solutions. Offer your clients a custom remote that runs on their iOS or Android phone or tablet, and controls everything from a modest single-room entertainment system to a powerful custom whole-home automation and control system.

iRule Advantages
Simple: No programming. Use simple drag-and-drop actions to create and modify the remote interface.
Flexible: Use the equipment you prefer and customize the user interface how you and the customer like.
Remote: Build projects "in the cloud" and modify a customer's remote without truck-roll to a customer's home or business.
Elegant: Use the included library of hundreds of images to customize the interface without spending money on expensive graphics libraries.
Fast: Use iRule's pre-built templates and images to complete projects in hours – not days.
Expandable: Easily add rooms, equipment, or capabilities to any system. Great for follow-on work!

iRule simply gives the installer the flexibility to add powerful control to any room – faster and easier than the competition.

The simple, yet powerful control solution for the smart installer.

Nothing

Real-Time Crime Prevention NightCam catches the intruder in the act instead of just recording the crime to watch on a video the next day.
Faster Police Dispatch Wireless motion viewers send a ten-second video clip over the cell network to the 24-hour monitoring station for police dispatch.
Pays for Itself Compared to hiring a full-time security guard who can only monitor one area at a time, AIN's NightCam can simultaneously monitor your perimeter, rooftop, and everywhere in between.

The unseen all-seeing eye:
From rooftop copper thieves to ground-level breaking and entering, NightCam no-light security camera surveillance system from AIN Group does nothing but guard your business from register to rooftop ... day and night.

NightCam—the new infrared camera from AIN Group—uses the latest high-tech wireless night vision technology. The camera unit itself has no visible light. Nothing even the craftiest criminal criminals can spot and avoid. In fact, you won't even know it's there. And neither will the bad guys. Until they're caught in the act. Recorded in total clarity, in real-time, even in pitch darkness by the NightCam. Stealth outdoor security for your business. There's nothing to it. Except a phone call.

Protect your investment and get 20% OFF Service

Just like your automobile, Home Systems need regular service. Environment (heat, cold, and dust) or power failures can affect your equipment's performance.

Heat-cold swings weaken adhesives and loosen wiring connection points. These need to be re-applied or re-secured.

Plasma and LCD TV vents must be cleaned regularly to extend life.

System Upgrades—Systems such as Control 4, Crestron, and Universal Remote need their codes updated for Blu-ray, or newly installed HDTV sets.

Comcast and DirecTV receivers are being upgraded as well as the hardware for some expanded HD packages. For optimal performance, be sure your equipment's up-to-date.

Alarm systems—door and window contacts, panel batteries—need yearly servicing.

Surround-sound systems may need to be recalibrated due to power failures and other irregularities.

Outdoor speakers should be cleaned and checked every season

Central Vacuum filters need to be changed and system checked.

Call <Company Name> today and schedule a service appointment before you have a problem repair!

Mr. and Mrs. Target

<Address>
<City>, <State> <Zip>

How our Medical Alert Button works and what makes it better than other buttons

1. Push the button and talk to an emergency operator 24-hours a day
2. We call your family or a friend if you feel ill or just need help getting up.
3. We will send emergency help when you need it and we'll stay on the phone with you until help arrives.

If you think all medical alerts are alike PLEASE READ THIS

Friendly at your home set-up

Unlike other life and medical emergency systems, we don't mail it to you in hope that you can figure the equipment installation out on your own. We send a factory trained, certified technician to your home and we install, test, and train you on the proper way to operate and use your emergency system. Really, this is the only way to properly confirm it's going to work for you.

Life Time Warranty and same-day Replacement Service

With the other guys you must pack up the system and ship it back to their factory (in the original box), and then wait for who knows how long to get it back! Really? Not with Scott Alarm, we have trained technicians we can dispatch 24/7 to your home to repair or replace the system so you're not left holding the bag!

On Call Emergency GUARANTEE

We install, test, and train you on the ultra simple steps to learn how to operate your system. If you are not totally satisfied with The LifeControl system within the first 5 days, we will pick the system up and refund your money. As for us we know, no other Medical Alert Button will do this for you. It's like a test drive, what do you have to lose?

• No Contract to sign
• Low Monthly Rates
• Your rates will Never go up
• Local security company since 1981 that knows your community

Call Today for a **FREE 5 Day Trial!**

Learn how our Medical Alert Button will offer the safety you deserve to feel comfort in your home and around your pet everyday.
