FREE DESIGN CONSULTATIONS

IC Realtime's concierge-level service starts here.

Plan for Success with Free Design Consultations.

Camera system design can be complex. You need someone who knows the gear, the laws, can maximize value and performance, and provides you with professional documentation to sell the deal. That's exactly what we do for our dealers & integrators. For free.

Our gear is the best, and so is our support. Put us to the test. Call to pick our brains. We can save you so much time & aggravation.

A/V Control & Home Automation Integration

Our Home Automation cross-series compatibility includes multiple control systems from industry leading providers with various levels of camera & recorder control capabilities.

RTI

See Performance First Hand

Our team always keeps DORI in mind when helping you get the best security camera for you next project.

For the best fit and project design, we ask the following:

- 1 What kind of camera are you using?
- 2 Where are you mounting the camera?
- 3 How far away do you need to observe?

ONE GREAT PLAN BEATS A THOUSAND SPEC SHEETS.

Pixels Per Foot Design

Pixels per foot allows us to calculate the level of detail / clarity of the image at certain distance intervals. PPF is dependent on image sensor, resolution, lens adjustment and distance.
