NEMA I.C.E BOX VIDEO SECURITY SYSTEMS

Weatherproof Video Systems Custom Designed For Your Most Challenging Installations.

Powered by IC Realtime

The Compact & Robust Design

Makes the NEMA box super mobile for off grid solutions

NEMA box recorders are the ideal solution for unstaffed locations like transit stations and ATM locations. Once installed, they appear to be just another electrical enclosure.

IC Realtime NEMA box recorders can serve that duty without stringing miles of cable for each camera location.

See everything Everywhere

Warehouse operations that need to monitor "blind spots" without giving up concealment can use box-installed pinhole or peeker cameras with a stand-alone recorder for loss prevention and remote supervision.

Power

Powering internal devices is a breeze, with duplex 120 VAC outlets protected from the enclosure elements. Dual solid state-controlled cooling fans to counter heat build from the electronics.

Wireless

As a Verizon Platinum Partner, we offer several different data plans that can be paired with our M2M Router & a pre-programmed point to point Ubiquiti solution for a completely wireless solution.

Solar

When power is not accessible or feasible, a solar panel unit can be used to power the Network's cradlepoint (enabling P2P access), the recorder, and the system's cameras.

It's our business to solve your

TOUGHEST SECURITY CHALLENGES

We are called IC Realtime Security Solutions for a reason.

Construction professionals continue to see increasing financial losses resulting from theft and vandalism at build sites. Here are areas where NEMA can help.

Law Enforcement

Parks and Farms

Construction Sites

Storage Yards

Concerts and Festivals

HOA Back Gates
