

# Slimstone USA

Real | Flexible  
Stone Veneer

## Lucent Stone

Our LucentStone Collection embodies the beauty and distinctiveness of natural stone like the signature stone collection. It is translucent and can be back lighted to show its beautiful natural stone features.

## Ledger Stone

Our Ledgerstone Collection is a rustic, stacked application of our top selling Signature Stone styles. With a highly contemporary linear-style, it installs easily with a self-adhesive backing. No grout, mortar or special tools needed.

## Signature Stone

Our dynamic Signature Collection embodies the beauty and distinctiveness of natural stone. Straight from the quarry, each piece is a one-of-a-kind thin flexible stone panel. Available in 30 styles, our easy to handle panels are perfect for limitless interior and exterior applications.

## What are the benefits of a ready-to-finish pre-built island or Fire Pit?

**Affordability:** A ready-to-finish outdoor kitchen island/FP is typically less expensive than a custom-built island, making it a more budget-friendly option.

**Convenience:** A pre-built outdoor kitchen island/FP saves time and effort on design and construction, as it is easier and faster to install compared to building from scratch.

**Consistency:** Pre-built islands/FP often have a uniform design, providing a consistent look and quality to your outdoor space.

**Customizability:** Even though they are pre-built, many outdoor islands/FP come with customizable options, allowing you to choose finishes, materials, and appliances to match your preferences and outdoor space.

**Flexibility:** Pre-built islands/FP are available in various sizes and configurations, making it easy to find one that suits your space and requirements.
